

Led Grow light

Led Aquarium light

- * Powerful LED grow/aquarium light can replace 2-3 times standard power MH/HPS grow/aquarium light
- 9w LED = 18w fluorescent light 90w LED = 150-175w Metal Halide
- 18w LED = 40w fluorescent light 120w LED = 250-300w Metal Halide
- 36w LED = 72w fluorescent light 300w LED = 500-700w Metal Halide
- * High efficiency, save 85% power consumption
- * Save electricity and money for the end user
- * Unique design, beautiful light
- * Does not require outside power supply, drivers are hidden within the fixture
- * Use built-in switching mode power supply, above 97% efficiency
- * Promotes plant and coral growth,
- * Uses both passive and kinetic theory of heatsink & air to reduce heat
- * No infrared rays and ultraviolet radiation
- * Can be directly placed above the aquarium tank without scorching
- * Lighting and vibration protection
- * Easy to install and use, plug into any standard 110v-230v electric outlet
- * Runs quiet and cool, built in cooling fan so no need for additional heat-removal equipment
- * Plug-and-play, no additional accessories needed
- * Dual cord for Blue/White LED arrays for separate on/off functions
- * 2 year warranty
